

MYSTAR HD TECHNICAL SPECS

MyStar HD has a series of lights at the bottom of the front panel. The lights are a handy indication of what feature you might be using with MyStar HD, like pause, rewind or play. Your MyStar remote control will work perfectly with MyStar HD, and will allow you to use all of the features with ease.

Connecting MyStar HD

- This diagram is designed to help you if you need to temporarily disconnect MyStar HD, or connect it to other equipment, such as an audio system

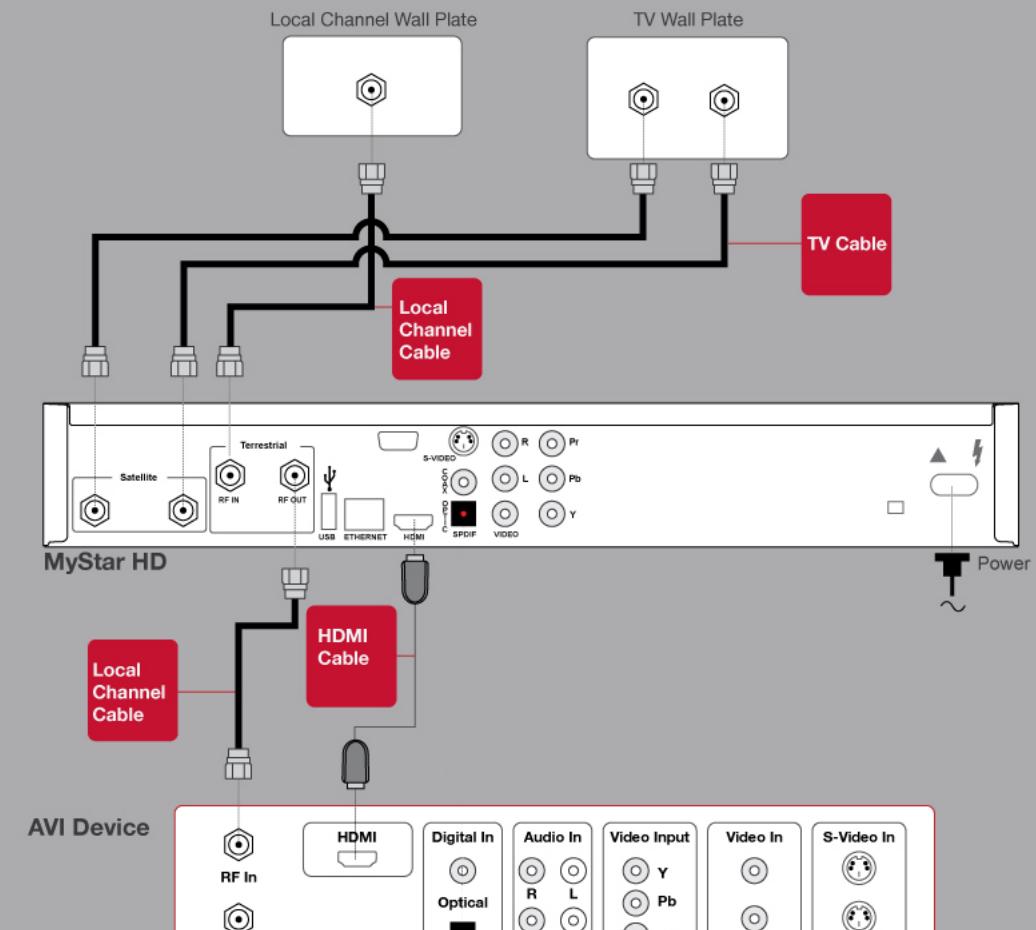

Note: To obtain the best audio and video quality, Foxtel recommends you connect MyStar HD to a HDTV using the HDMI connection. If this connection is not available on your HDTV, the next best option is to use the component cable connections.
